The health of your business depends on machine health!

## Sustainability 4.X

NuManufacturing AI ML based Sustainability Platform

### Multisensor Box for Predictive Maintenance

- 2x Acceleration Sensors
- 1x Magnetic Field Sensor
- 1x MEMS Microphone Sensor
- 1x Temperature Sensor

### Network Infrastructure

**Sensors Hardware & Network**  
Specialized hardware providing capabilities for the measurement of machine parameters such as vibration, temperature, humidity, etc. up to 2000+ points of data measurements, all managed, distributed, and analyzed via cloud infrastructure to provide real-time, 24/7 monitoring.

**NumBox sensor arrays**  
Modular sensor array hardware enables various size array capabilities that extend across facilities and regions. The flexibility of the NumBox array enables us to scale from a single business unit to the full end-to-end manufacturing ecosystem. NumBox arrays, data source.

**APM Suite**  
Application performance monitoring (APM) suite that acts as a managing layer for sensor arrays, enabling governance and troubleshooting, fault and health.

**Analytics**  
Data engineering, data science, integration of machine learning, and other analytical capabilities on learning directly from machine.

**Private Cloud and On-Premise Storage Platform**  
Private Cloud storage and sensor array platforms that support NuManufacturing Predictive Maintenance applications.

(TUGEV) Vakuf za razvoj turizma i edukacije osnovan je 1997. godine kao ekonomsko preduzeće. Nefitna organizacija ICVB je polu-javna, polu-privatna institucija i prva marketinška agencija gradova u Turskoj. Osnovana je s ciljem promocije i marketinga kongresnih i poslovnih mogućnosti Istanbula na međunarodnim tržištima, te privlačenja kongresa i povećanja prihoda od kongresnog turizma. TUGEV-ICVB predstavlja sektor kongresa, sastanaka i događanja u Istanbulu, uz podršku organizacija kao što su Istanbulska trgovinska komora, Ministarstvo kulture i turizma Republike Turske i Turkish Airlines. ICVB je član ICCA (International Congress & Convention Association) i UN Tourism

## Products

Established in 1997 The Istanbul Convention & Visitors Bureau – ICVB is a non-profit destination marketing organisation working as a branch of Tourism Development & Education Foundation – TUGEV which is also an affiliation of The Istanbul Chamber of Commerce-ICOC.

ICVB's main goal is to represent Istanbul around the world and to seek international associations and corporations planning to hold high-profile international congresses and events in Istanbul. ICVB has played a key role in Istanbul's rapid rise of popularity as a congress destination according to the ICCA statistics. Thus reassuring the significance of Istanbul's 8,500 year of history as well as professional services offered by the city's tourism industry and professional solutions offered by ICVB's strategies.

## Proizvodi

"Lokalni identitet, globalna vizija" pristupom vođen Univerzitet za trgovinu u Istanbulu je osnovan 2001. godine uz snažnu podršku Istanbulske privredne komore. Privredna komora Istanbula, sa svojih 138 godina tradicije i predstavljanjem turske ekonomije, jedna je od najjačih trgovinski komora na svijetu. Univerzitet za trgovinu u Istanbulu, spaja univerzitet sa poslovnim svijetom, priprema svoje studente za budućnost sa više od 245 profesionalnih i vodećih predavača u svojim područjima. Naš univerzitet, koji je započeo sa 73 studenta, danas nastavlja svoje obrazovne aktivnosti sa 10.000 studenata, gotovo 300 akademika, 6 fakulteta (Humanističke i društvene nauke, Poslovna administracija, Pravo, Komunikacija, Inženjering, Arhitektura i Dizajn), Odjelom za pripremnu nastavu na engleskom jeziku, 2 instituta (postdiplomski i finansije) i istraživačkim i aplikativnim centrima. Za više informacija o Univerzitetu za trgovinu u Istanbulu posjetite našu web stranicu.

## Products

Adopting the concept of "Local Identity, Global Vision" as a principle, Istanbul Ticaret University was founded in 2001 with the strong support of the Istanbul Chamber of Commerce. With its 140-year history and business people representing the half of Turkish Economy, Istanbul Chamber of Commerce is one of the most powerful chambers of the world. Istanbul Ticaret University who combines the university with the business world, has been preparing its students for the future with more than 245 professional and prominent faculty members. With 6 faculties (Humanities and Social Sciences, Business, Law, Communication, Engineering, Architecture and Design), English Preparatory Department and 2 institutes (Graduate, and Finance) and Research and Application centers our university, which started with 73 students, continues its education life with 10 thousand students and nearly 300 academicians. For further information on Istanbul Ticaret University please feel free to refer to our website

### Proizvodi

NuManufacturing IoT & AI Technologies Corp. dizajnira i razvija softversku platformu AI ML baziranu na Composer 4.X (Bestekar4.X), AI ML neuronsko-mrežnu platformu baziranu na održivosti 4.X (Bereket 4.X) i NumBox senzorske nizove. Composer 4.X predviđa potrebe za održavanjem i potencijalne kvarove većine mašina u bilo kojoj industriji kako bi se osiguralo da nema zastoja, da se održavanje obavlja na vrijeme i poveća vijek trajanja ovih mašina. Platforma Sustainability 4.X povećava efikasnost, optimizira rezervne dijelove i potrošnju energije kroz naše patentirane algoritme. NumBox senzorski niz je fuzija senzora kao što su temperatura, vibracije, ultrazvuk, 3D akcelerometar, 3D magnetski Hallov efekt, gasna kompozicija i opcioni NIR spektroskopija senzor i svi ovi podaci u realnom vremenu sa mašina su obrađeni od strane ugrađenih edge procesora i preneseni na privatnu cloud platformu (on premise) putem ethernet-a, LoRa, GSM-a, bluetooth-a. Svoje sjedište imamo u Istanbulu, Izmiru, Ankari, a sada i u Chicagu SAD-u, Londonu u Velikoj Britaniji i Toulouse-u u Francuskoj kako bi podržali lokalno i razvili naše istraživačko-razvojne projekte.

### Products

NuManufacturing IoT & AI Technologies Corp designs and develops AI ML based software platform Composer 4.X (Bestekar4.X), AI ML Neural Network based Sustainability 4.X (Bereket 4.X) platform and NumBox sensor arrays. Composer 4.X predicts maintenance requirements and potential failures of most of the machines at any industry to assure no downtime, to fulfill the maintenance on time to increase lifespan of these machines. Sustainability 4:X platform increases efficiency, optimizes spare parts and energy consumption through our patented algorithms. NumBox sensor arrays is a fusion of sensors as temperature, vibration, ultrasound, 3D accelerometer, 3D magnetic Hall effect, gas composition and optional NIR spectroscopy sensor and all these real time incoming data from the machines has been processed by builtin edge processors and transmitted to private cloud platform (on premise) via ethernet, LoRa, GSM, bluetooth. We are based in Istanbul, İzmir, Ankara and now in Chicago US, London UK and Toulouse France to support locally and to develop our R&D projects
